Tel-Aviv | 052-6353312 | noamhasson7@gmail.com | linkedin.com/in/noamhasson

## Profile

---

Software Engineer with hands on experience in designing and developing scalable microservices. Hardworking team player with an analytical and strategic mindset who approaches problems head on. Leveraging four years of command experience in an elite IDF unit to drive collaborative teamwork and structured problem solving, combined with strong technical curiosity and a passion to master complex domains. Driven with a commitment to excellence, consistently meeting deadlines and balancing multiple priorities.

## Education

---

Bachelor of Science, Reichman University (2023–2026)

**Computer Science and Entrepreneurship | GPA: 92 | Dean's list (2024 - 2025)**

Intro to CS - 100 | Operating systems - 98 | Digital Systems - 100 | Machine Learning - 89

## Professional Experience

---

**Backend Software Engineer | Varonis | 2025 – Present**

- **Cloud-Native & Distributed Systems** - Designed core platform infrastructure for large-scale microservices, leveraging Kubernetes Service (AKS) for high-availability deployment.
- **Identity & Data Security** - Engineered a centralized Zero-Trust Identity & Access Management (IAM) platform utilizing OAuth 2.0/OIDC and RBAC to secure REST and GraphQL endpoints, governing sensitive data access for both human users and autonomous AI agents.
- **AI Engineering & Agentic Workflows** - Orchestrated autonomous agentic workflows by integrating MCP servers and Copilot CLI to automate end-to-end engineering missions - accelerating feature delivery and multi-repository refactoring through custom LLM chains and intelligent tool-calling.

## Military Experience

---

**Commander, Israeli Defense Forces, Special Ops Unit "Maglan" (2018–2021)**

- Commanded a sniper team, leading critical decision-making in high-pressure environments.
- Led a strategic innovation project to modernize unit equipment. Managed system validation, defined protocols, and oversaw final assimilation across the Elite units.
- Carried out missions and strict onboarding training processes.

**Awards:**

- Received 2 awards from high ranked commanders during my period as a commander.
- Won the Israeli Defense Forces sniping championship for special units.

## Volunteer Activity

---

**Scoutmaster, Scout movement Israel (2008–2017)**

- Led a team of 60 scout members.

**Counselor, The Jewish Agency USA (2021)**

- Guided and mentored 20 participants over a two month educational program.

## Skills

---

- **Languages:** Python, Java, JavaScript, C, C#
- **Tools:** Git, GitHub, Docker, Linux
- **Data & Databases:** SQL, SQLite, CosmosDB
- **AI:** MCP Architecture (Server & Client custom tooling), Agentic Workflows, Machine Learning

## Languages

---

Hebrew - Native | English - Fluent
